

Worry-free sub-zero power generation all winter.

Re-Air regulates airflow to eliminate power drops and elevated emission levels caused by cold air, while extending the life of the engine.

- Thermostatically controlled engine environment ensures efficiency and longevity in extreme cold
- 12kW to 45kW gen-set options for multiple applications
- All units driven by reliable Kubota diesel engines
- Skid or trailer mounted options.

GENERATORS

With Re-Air

BUILT ARCTIC TOUGH

www.EquipmentSourceInc.com

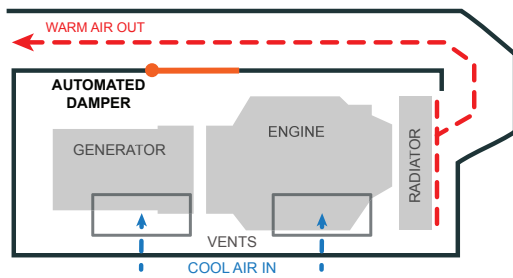

Standard Features

- Kubota diesel engine
- Mecc Alte and Stamford Generators
- Isolation breakers on all load connections
- Large interior fill pipe
- Durable powder coated finish
- Full Containment
- Large access doors for easy maintenance
- Fully winterized engine
- Arctic grade wiring

Generator Options

- Long run oil pan
- Fork pockets or lifting D rings
- 12, 15, 18, 20, 24, 36, 45 kilowatt rated ge-set
- Onboard 20kW load bank to keep engine under constant load
- Selectable voltage output of 208V or 480V (3-phase)
- Dual 3500 lb. axle trailer with DOT trailer lights, electric brakes, jack stand, and safety chains
- Automatic Transfer Switch Options

WARM WEATHER
Warm air from the engine is dumped outside the enclosure keeping it cool.

COLD WEATHER
Automated damper rotates distributing an appropriate amount of warm air back into the enclosure while dumping the excess heat.

Re-Air Model	Generator Model	Power Rating	Enclosure Dimensions	STD Oil Pan Weight	LRT Weight	Trailer Weight
AR2	KPG-12-AR2	12kW	Skid Mounted: 85"L x 39"W x 66"T Trailer Mounted: <i>In Development</i>	1840 lbs	2400 lbs	<i>In Development</i>
	KPG-14-AR2	14kW		1840 lbs	2400 lbs	
	KPG-18-AR2	18kW		2270 lbs	2600 lbs	
	KPG-20-AR2	20kW		2270 lbs	2600 lbs
